

9th International Water Association (IWA) Membrane Technology Conference

List of posters

Session 2 Tuesday 25 th june

num poster	ID	Title	Authors
100	264109	Application of Hydrogel Beads in Phenolic Wastewater Treatment	Yeap T.S., Ng How Yong (Singapore)
101	235254	Direct ultrafiltration of domestic wastewater by ceramic membranes	Vera Luisa, Ruigomez Ignacio, Gonzalez Enrique, Lassigna Manuela, Marrero Maria Del Cristo, Rodriguez-Gomez Luis Enrique (Spain)
102	235252	Shear-enhanced direct ultrafiltration of domestic wastewater	Vera Luisa, Ruigomez Ignacio, Galan Patricia, Gonzalez Enrique, Rodriguez-Sevilla Juan (Spain)
103	235181	DMBR-CANON combined process treating domestic wastewater and membrane fouling control	Zhang Xinying, Liu Yang, Zhang Jian, Chen Yiming, Zhang Weiliang (China)
104	235051	Treating high concentration municipal sewage by anaerobic/anoxic/oxic-membrane bioreactor(A2/O-MBR) under low temperature	Zhang Xinying, Yu Chengzhi, Chen Meixiang, Chen Ruoqi, Du Chaodan, Wang Zhiwei (China)
105	235043	Direct filtration of municipal wastewater using flat-sheet ceramic membrane	Li Xiao-Yan, Zhao Yan-Xia, Li Pu (Hong Kong, China)
106	233417	Application of the Diffusion Dialysis in the Wastewater Treatment	Ladislav Čopák, Libor Šeda, Lukáš Václavík (Czech Republic)
107	233415	Enhanced degradation of DMAc wastewater using Cu ₂ O/H ₂ O ₂ heterogeneous Fenton process in membrane reactor	Wenyue Lib, Ming Zhou, Weihong Xing (China)
108	235046	Decomplexation and Copper Recovery from Wastewater Using Electrochemical Composite Microfiltration Membrane	Li Jiayi, Ma Jinxing, Zheng Junjian, Wu Zhichao, Wang Zhiwei (China, Australia)
109	232131	Antimony recovery by electro-electrodialysis (EER)	Cifuentes Gerardo, Agurto Matias, Diaz Sebastian, Cifuentes Magdalena (Chile, Spain)
110	234800	Thin-Film Nanocomposite Membranes Incorporated with Highly Water Stable Metallic“Organic Framework for Enhanced Antimicrobial Performance	Wen Yue, Wang Zhiwei (China)
111	234726	Preparation and characterization of hybrid membrane PVA-MIL 160 for separation water-acetone	Leila Aouinti, Amina Hamliil (Algeria)
112	233449	Effect of incorporating positions on the antifouling and mechanical properties of the thin-film nanocomposite (TFN) membrane with carboxyl-functionalized cellulose nanocrystals (C-CNCs): a comparison study between active layer and support layer incorporation	Liu Yatao, Liang Heng, Bai Langming (China)
113	233156	Antimicrobial properties of nanocomposite cellulose acetate/silver ultrafiltration membranes	Figueiredo Ana Sofia (Portugal)
114	233139	Lower-temperature Preparation of SiC Ceramic Membrane with Zeolite Residue Co-composition for Wastewater Treatment	Jiang Qian, Jian Zhou, Ming Zhou, Zhaoxiang Zhong, Weihong Xing (China)
115	233092	Enhancing the Performance of Reverse Osmosis Membrane with Addition of Co-Solvents	Hailemariam Ruth, Damtie Mekdimu, Woo Yunchul, Choi June-Seok (South Korea)
116	232969	PVDF-TiO ₂ composite membrane performances - Influence of inorganic and organic components in water	Tran Duc-Trung, Mendret Julie, Mericq Jean-Pierre, Faur Catherine, Brosillon Stephan (France)
117	232309	Grafting of D-amino acid onto MF nylon membrane for biofouling control using biopolymer alginate dialdehyde as versatile platform	Rashid Khan, Xia Huang (China)
118	235192	Development of an adsorption-filtration module for CEC removal	Reif Daniela, Jordan Christian, Haddadi Bahram, Harasek Michael, Krampe Joerg, Kreuzinger Norbert (Austria)
119	235040	Understanding adsorption between membrane and pollutants in water treatment from the perspective of surface energy	Bingjun Han, Xiao Kang (China)
120	235034	Removal of contaminants of emerging concern in an AFMBR	Chyoshi Bruna, Coelho Lucia Helena, Subtil Eduardo (Brazil)

121	234952	Electrospun PAN-based SnO ₂ /graphene carbon nanofiber microfiltration membrane filter for enhanced electrochemical degradation of sulfamethoxazole	Yu Shuyan, Zhang Xiaoyuan, Liang Peng, Huang Xia (China)
122	233437	Evaluation of Amoxicillin removal and degradation products in an A/O-MBR operated under long hydraulic retention time (HRT)	Subtil Eduardo, Matsubara Milena, Coelho LÃ°cia Helena (Brazil)
123	233135	The electrochemical membrane filtration process for the removal of carbamazepine	Wang Qiaoying, Sun Jicheng, Wang Zhiwei, Wu Zhichao (China)
124	233015	Enzymatic removal of phenolic compounds in water with new bio-based immobilization supports	Harguindeguy Marine, Pochat-Bohatier CÃ©line, Belleville Marie-Pierre, Sanchez-Marcano JosÃ© (France)
125	232664	Atenolol Removal by Nanofiltration: A Case Specific Mass Transfer Correlation	Soares Elisa Veridiani, Giacobbo Alexandre, Bernardes AndrÃ©a Moura, De Pinho Maria Norberta (Brazil, Portugal)
126	235328	Wetting and wettability as screening criteria for new hydrophobic membranes for membrane distillation	Zhang Tiany, Mericq Jean-Pierre, Bouyer Denis, Laborie StÃ©phanie, Cabassud Corinne (France)
127	235157	Geothermal water treatment by vacuum membrane distillation with developed nanofibrous membranes	Mutlu Salmanli Oyku, Gezmis Yavuz Elifnur, Yuksekdog Ayse, Imer Derya Yuksel, Koyuncu Ismail (Turkey)
128	234973	Superhydrophobic PDMS-aerogel coating membrane for membrane distillation application	Bhaskar Jyoti Deka, Jiabin Guo, Alicia K.J. An (Hong Kong SAR China)
129	233515	Patterned/corrugated PVDF membranes for enhanced ammonia recovery from wastewater using membrane distillation (MD)	Kharraz Jehad, An Alicia (Hong Kong SAR China)
130	233294	Performance of MD and Analysis of Energy Efficiency of Pilot-scale System	Lee Chang-Kyu, Shin Hyun-Jun (South Korea)
131	233108	Hybrid structured photothermal distillation membranes for seawater desalination	Farid Muhammad Usman, An Alicia K.j (Hong Kong SAR China)
132	233100	Functionalized aerogel with branched perfluoroalkyl groups applications in membrane distillation to enhance water reuse	Yim Man Wai, A.K.J, An (Hong Kong SAR China)
133	224865	Effect of feed temperature on biofilm development during membrane distillation process: an especial attention to the microbial community succession	Liu Chang, Chen Lin, Zhu Liang (China)
134	237448	Metagenomic analysis of biofilm and sludge microbial community obtained from membrane bioreactor	Rehman Zahid, Torove Leiknes (Saudi Arabia)
135	235391	Comparison of the particle distribution of antibiotic resistance genes in the units of A2O and A2O-MBR processes	Junya Zhang, Mengmeng Liu, Min Yang, Yufeng Chai, Yuansong Wei (China)
136	235072	Denitrification of aerobic granular sludge: effect of the granule size	Bin Liying, Tang Bing, Huang Shaosong (China)
137	234825	Antibiofouling performance of QAC modified PVDF membranes in an MBR treating municipal wastewater	Mei Chen, Zhiwei Wang (China)
138	233348	Effects of MLSS on membrane transvers vibration in MBR	Yu Dawei, Zhong Hui, Zheng Libing, Sui Qianwen, Wei Yuansong (China)
139	233014	Performance Evaluation and Cost-Benefit Analysis of Lab-scale MBR	Saeed Nadeeha, Nawaz Mariam Ayub, Chung Shinho, Nawaz Saqib (Pakistan)
140	235160	Using an algae-based membrane bioreactor to remove nutrients in the wastewater	P.-H. Wu, T.-M. Hsieh, C.-P. Yu (Taiwan)
141	232897	Solid Retention Time Controls the Dynamic Membrane Structure in the DMBR	Ju Huang, Guoqiang Liu(China)
142	235225	Investigating the filterability of oil containing waste waters using polymeric membranes	Idrees Hasan, Elsherbiny Ibrahim, Panglisch Stefan (Germany)
143	235187	Negative charged nanofiltration membrane-derived from reclaimed tire rubber for dye removal	Fan-Ya Kao, Ming-Yen Wey, Hui-Hsin Tseng (Taiwan)
144	235177	Hydrogen production in a microbial electrolysis cells with separator-electrode assemblies	Liang Dawei, Yanan Fu, Yan Xiang (China)
145	235166	Assessment of membrane suitability for ammonia removal from waste condensate	Regan Fiona, Briciu Burghina Ciprian, Lawler Jenny (Ireland)
146	235120	Treatment and Recovery of Textile Wastewater by Using Pilot Scale Ceramic UF/NF Membrane System	Agtas Meltem, Yilmaz Ozgun, Turken Turker, Korkut Sevde, Keskin Basak, Al-Mutwalli Sama, Alp Kadir, Koyuncu Ismail (Turkey)

147	235037	Forward osmosis for oil filed wastewater reclamation: Hydrolyzed polyacrylamide (HPAM) as the draw solute	Yu Shuili, Gu Zhengyang (China)
148	234951	Propositions to optimize the pretreatment plant of a reverse osmosis process, from an oil refinery	A. R. P. Motta, C. P. B. Lemos, R. P. Santos , R. S. S. Fiscina, P.M.R.T.S. Silva (Brazil)
149	233149	Effect of Acid Precipitation on Electrodialysis Process in Pulp Wastewater Treatment to Improve the Crystallized Salts Quality	Li Zhaoyang, Li Rongzong, Zhou Ming, Xing Weihong (China)
150	232835	Benefis of Ultrafiltration Megamodules in Seawater Filtration for Water Injection Systems in Oil Industry.	Duchemin Isabelle, Weston Rod, Saux Franc, Espenan Jean Michel, Lorain Olivier (France, United Kingdom)
151	237612	Monitoring fouling in SW and HF modules using low field nuclear magnetic resonance	Fridjonsson Einar (Australia)
152	236990	Effect of hydraulic pressure and permeate flux on biofilm development in membrane systems	Bucs Szilard, Kim Lan Hee, Nava Ocampo Maria Fernanda, Vrouwenvelder Johannes (Saudi Arabia)
153	235196	Disulfonated diamine monomer usage to enhance the performance of NF membrane	Ormanci-Acar Turkan, Keskin Basak, Agtas Meltem, Turken Turker, Tas Cuneyt Erdinc, Imer Derya Yuksel, Menciloglu Yusuf Ziya, Unal Serkan, Koyuncu Ismail (Turkey)
154	235076	Role of common cations in shaping polysaccharide foulant	Meng Shujuan, Wang Rui, Liu Yu, Liang Dawei (China, Singapore)
155	234932	Fouling reduction by the resonance vibration in membrane filtration of the microalgae solution	Min Choong-Sik, Kim Seung-Hyun, Lee Tae-Min (South Korea)
156	234911	Membrane fouling mitigation in seawater desalination by reproducible TiO2 membrane	Jiixin Guo, Bhaskar Jyoti Deka, Alicia Kyoungjin An (Hong Kong SAR China)
157	234705	Analysis of modified feed spacer to mitigate biofouling property	Shin Hyunseo, Park Chansoo, Lee Chang-Kyu, Kim Jong-Oh (South Korea)
